Guidance and Discipline

Because a key goal of the program is to help children develop positive self-esteem, build trust in the world around them and develop autonomy and pride in their work, a positive guidance approach is used. A supportive, nurturing environment with caring adults is the first step in the development of inner control and appropriate behavior. All actions are taken to help a child determine alternatives to solving problems between peers or to discuss problems arising out of human interactions or disputes arising out of misconceptions or expectations not being met.

Discipline will be carried out in such a manner that children will learn to develop a sense of acceptable behavior, a guideline for developing self-control, and an understanding of behaviors that are expected of each individual while part of a group. There will be a set of five rules, which all persons in the program will be expected to adhere to. This will include staff and parents. The five rules are:

- 1. No one may hurt or intimidate another person or be the cause of another to be fearful, through verbal, physical or the use of gestures.
- 2. No one may place themselves in a dangerous situation or be the cause of jeopardizing the health or safety of a person.
- 3. No one may be disrespectful of another persons' sense of self or use unacceptable language.
- 4. No one will cause damage or deface the equipment or personal belongings of another person or the facilities used by the program.
- 5. No one may refuse to follow the rules or disregard them.

Acceptable Disciplinary Actions are as Follows:

- 1. A child will be given a set of alternatives, which they may choose from to correct or help to make better the situation.
- 2. If needed the child will be given a time out. (No longer than 1 minute per number of years of a child's age.)
- 3. If more than one time out is needed in a given week parents will be verbally notified.
- 4. If more than two time outs are needed in a given week a written behavioral report will be given to the parent and put in the child's file.
- 5. In cases of aggressive behavior, the child will be removed from the situation as quickly and safely as possible to prevent further harm to the person involved.

All disruptive behavior will be documented with a copy given to the parent of the child involved. Should disruptive behavior continue, the parent, child and staff member will set up a discussion time to find an agreeable solution or method for handling any further incidents. However, should the situation be found that the program is not suited to the child's needs or that the staff cannot handle the behaviors effectively, the child can be referred for professional help. Guidelines will be given professionally as to how to help the child in further situations and will be carried out unless the behavior management needs are a burden to the fiscal resources of the center, staff time or infringe on the ability of others in the program to enjoy the program without hindrance.

The circumstances, which will terminate participation of services for a child due to behavior, can be:

- 1. Non-compliance with the five rules on a consistent basis.
- 2. Severe, uncontrollable, aggressive behavior with one or more incidents per week.
- 3. Inappropriate behavior or language on a consistent basis.
- 4. Repeated incidents which are a burden for staff to handle and allowing for effective supervision of the others or which may infringe upon the rights of others to participate.

Should your child be terminated from the program, refunds will not be given for any part of the current week or following week after termination. Should your child be suspended from the program, refunds will not be given for the suspension period.
